

Do you want to have your say about new asthma services?

We want to hear from you about your own experiences of healthcare and think about how technology could support you in managing and improving your health and well-being.

This workshop will be one of several, looking at new ways to improve the lives of people living with one or more conditions including asthma, cardiovascular disease, Chronic obstructive pulmonary disease and diabetes.

Asthma workshop

Thursday
26th September 2019,
10:00 am - 12:00 pm

The Kings Studio,
