

# VOLUNTEER

all that's missing is U!

### **Some words from Joan and Joy's experience...**

Joan has been visiting Joy for 3 years and has supported her through many challenging times including being affected by cancer on 5 different occasions and the sad passing of her husband. Joy's face lights up as she says "It's what I look forward to all week. I have so much to tell her and I'm never lost for anything to say. We always have a laugh; in fact we both have the same sense of humour. We both see the funniness in things that are really not funny but we always end up in howls of laughter." Joy smiles and continues "I can say what I feel to Joan and through chatting I always seem to get the answers that I am looking for." Joan who has been a Macmillan volunteer for 5 years says "It really is the best thing I have ever done."
